

City of Bluff City
Mayor Percy J. Brown

Office of the Mayor

City Hall / 100 Broad Avenue
Bluff City, Ohio

January 2, 2009

Dear Bluff City Citizens:

Yes, folks, it's true. Everything you've read in the Bluff City Squealer about your beloved mayor being arrested is true. Allow me to extemporize.

The temporary city hall recreational vehicle was raided a few weeks ago by Bluff County Code Enforcement for alleged code violations. Bluff County Code Enforcement Commandant Adolf Smakersten mistakenly took my joke "bribe" as a real bribery attempt and before I knew it I was hauled away in chains to the Bluff County Code Enforcement Detainment Facility (BCCEDF).

For those of you unaware of the Bluff County Code Enforcement Detainment Facility, allow me to illuminate you on this truly horrid, dank, and dark place, which smells of death and decay. This place makes Guantanamo look like Disney World. It is a dismal world where flowers never grow and the sun never shines; where happiness is unknown and the Tooth Fairy was beheaded. The prison guards roast Easter Bunnies for lunch. It is an evil land of hopelessness, decaying under the reign of an evil tyrant, King Smakersten, who rules in cruel misery. Suffice it to say that there are few code violations in Bluff County – people know what happens when you don't get the right permits.

I know it sounds like a mythical land, but believe me when I say it exists, hidden away in some unknown corner of Bluff County. I was personally banished there for a short time before I was finally rescued from Code Enforcement Hell by my daring and knowledgeable personal attorney, the Honorable J. Noble Daggett. Daggett finally managed to locate the top-secret facility a week after I was unlawfully incarcerated and had me released ninety-six hours later, as there were some minor issues with raising so much bail money (\$75K) on such short notice.

After my departure from the hellish facility was finally secured, I realized that I – Percy J. Brown – must lead the charge to close this awful hell hole, where human rights are trampled daily and human dignity is laughed at! Human Rights Watch has placed the BCCEDF on its list of Most Evil Prisons and Code Enforcement is easily the most evil branch of Bluff County government, more hated than Hitler's own Third Reich! It must be disbanded and destroyed forever!

Needless to say, my attorney and I are considering a billion-dollar lawsuit against the Bluff County Code Enforcement agency. I just need to figure out if such a lawsuit will negatively impact my campaign contributions for my next run at re-election.

Sincerely,
Percy J. Brown
Your Honorable Mayor
